

DP Series

Specialty Media for HP Indigo

Mitsubishi Imaging's DP Series is available in several different surface finishes, from 8-mil. to 10-mil. and in single sided and dual sided finishes for superior photo reproduction without the need for lamination.

DP Luster Dual

Unique single sided media with an enhanced luster metallic finish, similar to silver halide metallic photo papers. Designed for the highest quality photographic output. Available in 9.5-mil thickness.

DP Gloss Pearl

Single sided photo media with a hi-gloss metallic surface finish, similar to silver halide metallic photo papers. Offers exceptional image clarity, and brilliant color reproduction with a high gloss metallic finish. Available in 9.5-mil thickness.

DP Luster 160 / 190 / 270

Dual sided media featuring a luster surface finish on both sides. Designed for high quality photo reproduction and commercial photo applications. Available in 6.5, 8, and 10-mil thickness.

DP Luster Pearl Dual

Superior design with all the benefits of DP Luster Pearl plus the enhancement of printing on both sides. Ideal for any application requiring superior dual sided photo reproduction. Available in 9-mil thickness.

DP Luster 190R

Resin coated photo paper designed for professional portrait output as a replacement to silver halide. Single sided media featuring a luster surface finish. Certified for continuous roll-to-roll HP Indigo digital presses.

Our DP Series Dual print media features a superior printing surface on both sides, making it ideal for photo and wedding books.

DP Series Specialty Media from Mitsubishi Imaging gives HP Indigo users an edge over the competition offering a brilliance and clarity that no other media on the market today can match.

Designated as HP certified substrates, DP Series Specialty Media is ideal for the production of a wide range of high quality printed materials, including:

PHOTO BOOKS

GREETING CARDS

WEDDING ALBUMS

POSTERS

FINE ART PRINTS

BROCHURES

Mitsubishi Imaging, a leader in sustainable green technology, is proud to offer the widest variety of inkjet media, graphic arts materials and communications papers available to best serve the needs of today's printers.
